Channel in a Box *lite*
by PlayBox Technology

Channel-in-a-Box LITE by PlayBox Technology offers maximum features at the fraction of the cost of any other solution available on the market today. Available both as a Turnkey and software only solution it gives broadcasters the technology for running a complete TV channel in an easy and extremely cost-effective way. Ingest, CG with Graphics and Playout integrated together and providing SDI or IP streaming connectivity are some of the basic features of Chanel-in-a-Box LITE.
