Broadcast an additional wireless SSID signal for your team or your guests to connect to.

Conference Control

Allows a designated moderator to select and control which device in queue will be displayed on screen.

USB Guest Access

Includes a fast Plug-and-Show USB token, enabling guests to give a wireless presentation without installing software on their computer.

FEATURES FOR:

1500

2000

Touchscreen Control

Control and operate the presentation using the USB of the touchscreen display.

AirPad Controller Support

Write, draw and annotate, but also control any projecting computer using the special AirPad.

Interactive Whiteboard

With one click, switch the presentation to a white/blackboard environment for quick annotations.

OnScreen Annotation

During a presentation, write, draw and annotate on-screen using the built-in annotation overlay.

FEATURES FOR:

2000

USB Document/Media Player

Plays any document, image, audio and video file directly from your personal USB.

Onboard Video Player

Stream video file to the wePresent unit with full resolution and no latency.

Gigabit Lan and POE

Highest possible network speed. Power the wePresent units by ethernet cable.

Auto-detect Output Resolution

Auto-detect the output resolution of your display.

Save Annotations

Annotating, writing and drawing can be done using your touchscreen, then save the entire screen to the USB drive.

Improved Security

Offers enhanced security by adopting AES-128 bit encryption on mirroring data and https encryption for web browsing data.

1-to-Many Distribution

Projects one device to up-to 4 different wePresent displays.

Multi-Touch Touchscreen Control

Supports up to 6 separate finger-touch gestures on the touchscreen display.

Enhanced USB Control

Use a Bluetooth mouse to play USB media files, control projecting computers, access conference control or select users from the queue

iOS Mirroring (AirPlay Support)

Mirror your iOS devices through AirPlay. Supports up to 1080p resolution.

Quick Manual Connect / Updated Plug & Show

Faster connections for guests, first-time users or users on a different subnet. Quick connection for multiple subnets. Ready to share in 10s.
